# KANE INSTRUMENTATION LTD.

*Specializing in Instrumentation and Oilfield Equipment*

## Dynamometers

### Features

- The most well-known brand of dynamometers is Dillon. The instruments are transportable, pre-calibrated at the factory, and functional right out of the box.
- Only Dillon provides both mechanical and electrical variants, and each has a wide selection of designs and capabilities.
- Includes a calibration certificate
- With just one primary operational function, ZERO, dynamometers, load cells, and load connections are easy to use.

### How To Order

- Electronic or mechanical
- Scale Range
- Crane Scale or Dynamometer
- Box
